

Korean Epilepsy Congress

June 13-15, 2013 Grand Hilton Hotel, Seoul, Korea

E-Newsletter 1st Edition, February, 2013

Greetings from Korean Epilepsy Congress 2013!

Dear Colleagues,

On behalf of the Organizing Committee and the Korean Epilepsy Society (KES), it is my great pleasure to welcome you to the Korean Epilepsy Congress (KEC 2013) which is to be held from June 13 to June 15, 2013 at the Grand Hilton Hotel in Seoul, Korea.

Last year saw the inauguration of the Korean Epilepsy Congress (KEC) and the declaration of the Korean name change of "epilepsy" to "Cerebro-Electrical Disorder (CED)". It was the fruit of KES's longstanding efforts to improve the negative image of epilepsy and lessen the long-lasting stigma that the former Korean name of epilepsy carried so that both patients and their families could overcome the suffering from the name. Also in 2012, the annual scientific meeting was transformed into an international congress in accordance with the KES's mission to become globalized both in its progress and contribution to the society.

Without doubt, the highlight of our Congress is the Scientific Program. Our Scientific Program Committee has invested considerable time and effort in developing a program which explores various topics and new directions in epilepsy with high profile experts from around the world. The program comprises of a Plenary Session, Teaching Session, Parallel Symposium, Satellite Symposium, Oral Presentations, Presidential Symposium, and Poster Presentations, and reflects the diversity and commitment of our achievements in the field. From the Congress, we expect that you will gain a greater understanding of how the profession is practiced across the world. It will also be a good opportunity to meet with your international colleagues.

Complementing the Scientific Program are the sponsored satellite symposiums and the widely popular exhibition. The official Congress Opening will be on Friday, June 14, and will be followed by the Congress Banquet on Friday evening, where delegates can meet with colleagues, both old and new.

A Congress of this magnitude would not be possible without the hard work and dedication of our KEC organizing committees and the support of our member countries as well as our industry partners, sponsors, and exhibitors. On behalf of the KEC Organizing Committee, we hope you will have a wonderful stay in Seoul and a memorable experience from this Congress.

I look forward to seeing you soon at KEC 2013.

Sincerely,

Heung Dong Kim, MD, Ph. D.
President
The Korean Epilepsy Society
