Guidelines for Publications from League Commissions and Task Forces

A key component of the ILAE's Strategic Plan is for the League to be recognized as the authoritative source for epilepsy issues that are international in scope. The League appoints Task Forces and Commissions to advise the epilepsy community about major current issues as well as to provide us with up to date definitions and classifications that become part of a common language. To assure that all publications carrying the League's name reflect this central goal, the Executive Committee has approved a set of guidelines that will govern the preparation, review and approval of reports from ILAE Task Forces and Commissions. [Guidelines](#)

31st International Epilepsy Congress – Istanbul September, 2015

Hold the date: The next International Epilepsy Congress will be held September 6–10, 2015 in Istanbul, Turkey.

Open Call for Session Proposals

[Submit a Proposal](#) – **Deadline: November 22, 2013.**

The Organising Committee is responsible for the selection of sessions and proposals may be amended. Session proposals are evaluated based on the scientific interest and quality of the session and the potential to attract participants. Prior to submitting your proposal, please refer to: [Recommendations](#) set out by the Congress Co-Chairs.

ILAE Website Improvements

In response to user comments made at the 30th International Epilepsy Congress in Montreal, we have improved the loading speed of the website by reducing the size of the graphics, particularly on the home page. We hope that our efforts have helped those with slow internet connections, and kindly request your feedback. Please email your comments to ilaenews@ilae.org

More information about epilepsy and the ILAE may be found at the ILAE web site, www.ilae.org.
